PHILIPS

Mobile Phone E-GSM 900/1800

PHONE FEATURES

• Ultra fine pitch on main color display

High contrast, High brightness (100Cd/m2), 65,000 colors CSTN, 128*128 pixels, 8 lines of text. Ultra fine pitch: 120 DPI, for clear bright color images.

• External Black and white sub-display

When you receive a call the black and white sub-display is lighting. 80*48 pixels.

• **"IconCall"**: When there is an incoming event (call & message) you can see who's calling on the Black and White sub-display as well as on the main 65,000 CSTN display.

• Clamshell management

When activated, this feature allows you to answer an incoming call by simply opening the phone.

• Color picture library

Choose one of the great pictures from your 636 picture library, use it for wallpaper and/or screensaver or even send it via MMS.

• Incredible storage

You can store up to 100 SMS, EMS and MMS in your phone memory and reuse them later (memory dependent for MMS. To be checked with the integrated file manager).

• File manager

to allocate the available memory in the phone between voice tags, voice memo, names, pictures, games, melodies, etc.

• BeDJ

Create your own mix of polyphonic ringtones thanks to a fun, easy to use graphical interface. Send your mixed ringtones via MMS. Download new BeDJ styles in order to create more innovative mixes.

• Polyphonic ringtones

32 polyphonic ringtones featuring a wide range of melodies.

• Downloadable ringtone melodies¹.

Select your favorite ringtone on the internet or WAP and download them onto your phone.

• Audio quality

The mobile includes Enhanced Full Rate (EFR), Full Rate (FR) and adaptive multirate (AMR) transmission vocoders to obtain better audio quality and coverage compatibility¹.

• Volume

Ringer: high, medium, low, silent, increasing mode. Earpiece: adjust for private comfortable volume while calling.

• Color game

With Infusio V2 (Operator dependent) a wide choice of new downloadable color games are at your disposal. When you play a game, you can publish your score via SMS, challenge other players and win prizes !

• Philips Color Carousel

The unique Philips color carousel concept with colored animated icons, allows intuitive navigation.

• Picture applications

Thanks to the embedded photo album or with pictures taken with the optional color camera, you'll always have the best fitting picture for FotoCall,

screensavers or wallpaper applications.

Exchange those pictures via MMS, e-mail or using your PC and the "Mobile Phone Tool" software provided.

• Color camera (available as accessory)

Take pictures with the camera, send them via MMS or store them in the dynamic memory. There is a low light mode which gives you best results in poor light conditions (low sensitivity: 5 Lux). You can also customise sounds recorded with the photo using your extensive sound bank. This camera has the following characteristics: CMOS / VGA definition / Digital zoom (x2) / Preview frame rate: up to 5 images / sec.

• MMS

to receive and send messages composed of text, sounds and pictures (taken with the accessory camera). Received melodies can be used as ringtones and images as wallpaper and/or screensavers.

• Email

for direct access to email services from the phone. You will also be able to attach pictures.

• EMS release 4[©]

to receive and send formatted texts, melodies, images (created by yourself thanks to the EMS picture editor). Received melodies can be used as ringtones.

• SMS/Quick SMS

to read and answer SMS very quickly. When Quick SMS mode is selected, SMS received are automatically displayed and you can answer them with a single key press.

• WAP 1.2.1 Wireless Application Protocol

Access a world of services wherever you are. Possibility of downloading images and/or ringtones.

• GPRS Class 10 (General Packet Radio Service)

is a transmission protocol, which allows you to send/receive data at higher speeds compared to GSM (up to 54kbps in download).

• T9™ Text Input

Predictive text input to write emails, SMS, EMS and MMS. Chinese and most European languages are available.

• Voice recognition & Voice recording.

- Voice dial/command: just say a name or a word to dial a number from the names list or to activate a specific function of your phone.
- Voice Memo & Voice Recording are also available. Use the record you made as a ringtone, SMS alert, or even more, send it via MMS.

• Smart Phonebook

Under each name, up to 5 phone numbers (mobile, fax, data, note, e-mail, pager; home and work) can be stored. You can synchronise it with your PC.

• Personal Organiser

to plan all your meetings and events in your calendar and set your phone to remind you of them. Possibility of synchronising it with your PC, or PDA.

• Concatenated SMS

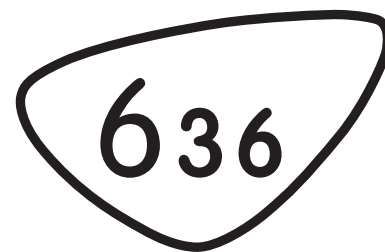

to write long SMS by connecting 5 pages + attachments when sending (up to 50 pages-SIM dependent on receipt
