# PHILIPS

## Product highlights

### Displays

Internal color display: High contrast and high brightness, 65K colors, 128\*160 pixels, 7 lines of text. Ultra fine pitch: 120 DPI, for clear bright color images. Sub-display: Reverse Blue Backlight, 80\*48 pixels.

### Blue reverse external display

The LCD technology has been reverse to light the text instead of lighting the background to create this surprising effect.

### Big storage capacity

You can store up hundreds of images in your phone album and use them for slideshows, wallpaper or even send them via MMS (depending on picture format memory available).

### Integrated color camera

Take pictures with the integrated camera, send those pictures via MMS / e-mail / IrDA or store your pictures in your photo album for slideshows. You can take pictures in low light condition, thanks to the low light mode (low sensitivity: 5 lux). This camera has the following characteristics: CMOS / VGA definition / Digital zoom (x2, x4) / Preview frame rate: up to 15 images / sec.

### Picture applications

Color pictures and wallpapers. Thanks to the embedded photo album or with pictures taken with the integrated color camera, you'll always have the best fitting picture for FotoCall or wallpaper applications. Exchange those pictures via MMS, e-mail or using your PC and the Mobile Phone Tool software provided.

### Frames selection

Creatively personalize your pictures with a large selection of frames. These frames can be added in preview mode as well as in post processing application.

### Special effects

You can modify pictures which you will take with the integrated camera using special effects such as sepia, grey scale, edge, digital, embossed and negative colors. After have taken pictures you can add icons, frames and text.

### Auto switch on & off

This feature enables the phone to be automatically switched on and off according to the internal timers you have set.

### Demo mode

Animations and sounds to demonstrate the screen and sound capabilities to your friends.

### Philips Color Matrix

Building on the revolutionary Philips Matrix, provide a fast and easier way to navigate through the animated icons with the 4-way navigator on the keypad.

### Clamshell management

When activated, this feature allows you to answer an incoming call by simply opening the phone.

### FotoTalk

With the FotoTalk feature, you can send instantaneously pictures and recorded voice messages via MMS.

### Polyphonic ring tones

64 polyphonic ringtones to enhance your audio experience.

### Downloadable ring tone melodies

(network dependent) Select the melodies you prefer on the Internet or WAP and download them into your phone.

### Audio quality

The mobile include Half Rate (HR), Enhanced Full Rate (EFR), Full Rate (FR) and adaptive multirate (AMR) transmission vocoders to obtain better audio quality and coverage compatibility (network dependant).

### Hands free

Switch to handsfree to let your friends join in the conversation or set up your own conference calls.

### BeDJ

Create your own mix of polyphonic melodies thanks to a fun, easy to use graphical interface. Send your mixed ringtones via MMS or IrDA. Download new BeDJ styles in order to create more innovative mixes.

### Color games

Thanks to new Java applications, a wide choice of new downloadable color games is also at your disposal. With Infusio V2 (operator dependent) a wide choice of new downloadable color games are at your disposal. When you play a game, you can publish your score via SMS, challenge applications such as graphic applications, information tools, and interactive games.

### MMS to receive and send messages

Composed of text, sounds and pictures (taken with the camera) and use received melodies as ringtones and images as wallpaper or screensavers.

### Email

For direct access to email services from the phone. You will also be able to attach pictures.

### EMS release 4

To receive and send formatted texts, melodies, images and use received melodies as ringtones.

### SMS / Quick SMS

To read and answer SMS very quickly. When quick SMS mode is selected, SMS received are automatically displayed and you can answer them with a single key press.

### Concatenated SMS

To write long SMS by connecting 5 pages & attachments when sending (up to 50 pages - SIM dependent on receipt).

### WAP 1.2.1. Wireless Application Protocol

Access a world of services wherever you are. Also, you are able to download new images or ringtones.

### GPRS Class 10 (General Packet Radio Service)

Is a transmission protocol, which allows you to send/receive data at higher speeds compared to GSM (up to 54 kbps in download).
