Product highlights

Real digital cam design

The exterior design looks like a high quality camera while under its skin lies a fully functional mobile phone.

180° swivel hinge

The 180° swivel hinge allows you to use your mobile display just like a real digital camera preview screen.

Multi-shot

Camera function for taking continuous pictures at precious moment.

Up to 70 high resolution photos

Thanks to the large user memory (18MB), you can capture with the built-in 1.3 Megapixel up to 70 amazing 1280x1024 pixels pictures.

Super bright torch light

Take clear pictures at night with the built LED super bright torch light.

TV SlideShow

TV SlideShow allows you to share with your family or friends pictures you have captured with your camera phone. You can simply display the pictures on the TV screen by connecting your mobile phone to the TV set with the TV Link accessory.

Java 2.0

Technology allowing to enhance and personalize your phone by downloading new games and applications

MMS messaging

Multimedia Messaging Service (MMS) allows to send and receive pictures, sounds and text in the same message on mobile phones.

WAP

Connect to WAP enabled web sites thanks to the Wireless Application Protocol (WAP) version 1.2.1

Date of issue 2005-01-10
